

AVANISH SINGH KUSHWAH

Principal Data Engineer | Snowflake • PySpark • Python • Cloud ETL/ELT
Greater Noida, India • +91-97523-39909 • avanish9752339909@gmail.com • [linkedin.com/in/avanish42](https://www.linkedin.com/in/avanish42)

PROFESSIONAL SUMMARY

Data Engineer with 11+ years of experience designing and delivering large-scale ETL/ELT pipelines, data warehousing, and analytics platforms. Deep hands-on expertise in Snowflake, PySpark, Python and SQL, with a strong track record in cloud-native data engineering, performance tuning, and data governance. Databricks Certified Data Engineer Associate. Skilled in building scheduled and event-driven pipelines that integrate diverse sources into governed warehouses for BI and ML. Uses AI tools (Claude, GitHub Copilot) daily to accelerate development, code review, and documentation.

TECHNICAL SKILLS

Data Warehousing: Snowflake (ELT, data sharing, performance tuning), Redshift, Databricks (Lakehouse, Delta)

Big Data & Processing: Databricks (Lakehouse, Delta Lake), PySpark, Apache Spark, Apache Airflow, dbt, Kafka, EMR

ETL / Orchestration: Azure Data Factory (ADF), AWS Step Functions, AWS Glue, Apache Airflow, dbt (scheduled & event-driven pipelines)

Languages: Python (Pandas, NumPy, PySpark), SQL (advanced), PL/SQL, PHP, JavaScript, C

Cloud: AWS (S3, Glue, Lambda, Step Functions, EventBridge, EMR, SQS, EC2, IAM, Athena); Microsoft Azure (Data Factory, Blob Storage)

Databases & Formats: PostgreSQL, MySQL, DynamoDB, Redis, InfluxDB | Parquet, JSON, CSV, Avro (structured & semi-structured)

BI & Tools: Power BI, Tableau, Intellicus, Git, Docker, Jira, Grafana, Postman, REST APIs, PyTest, Selenium

Practices: Data Governance, Data Quality, Data Modeling, CI/CD, Agile/Scrum, AI-assisted development (Claude, GitHub Copilot)

CERTIFICATIONS

- **Databricks Certified Data Engineer Associate** – January 30, 2026
- GATE Qualified – Computer Science (2013–15) | Diploma in System Software Design (DSSD), C-DAC Bangalore (2012)

PROFESSIONAL EXPERIENCE

Principal Data Engineer (Principal Consultant)

Jan 2024 – Present

Genpact, Noida

- Architected and delivered the NSP data platform on a modern cloud data stack — ingesting IT/OT and enterprise (SAP) sources into Snowflake via dbt-driven ELT pipelines.
- Built scalable PySpark transformation jobs for structured and semi-structured data (JSON, Parquet), applying data governance, data quality and security best practices across schemas (access controls, lineage, standardized models).
- Designed scheduled and event-triggered orchestration workflows (daily jobs, dependency-driven pipelines) with monitoring, retry, and logging/alerting for production reliability.
- Optimized SQL and warehouse performance in Snowflake, reducing query/compute cost and improving throughput; delivered BI in Power BI/Tableau with regular stakeholder insights.

AWS Data Engineer (Assistant Consultant)

Jan 2023 – Jan 2024

Tata Consultancy Services (TCS), Noida

- Built and maintained ETL/ELT pipelines on AWS (Glue, Lambda, Step Functions, S3); developed Python and PySpark jobs to transform, clean and aggregate large datasets for analytics.
- Implemented event-driven pipeline scheduling and monitoring (EventBridge, CloudWatch) with robust error handling and retries, partnering with stakeholders on requirements.

Senior Data Engineer / Data Scientist

Jun 2019 – Dec 2022

Biz2Credit, Noida

- Developed ETL pipelines using Python (AWS Lambda), S3 and Snowflake for fintech/banking data; built ML models using NLP, including text extraction from documents via AWS services.
- Monitored risk scorecards, underwriting and fraud-prevention strategies; created dashboards in Tableau, Intellicus and MySQL to surface data trends and influence business outcomes.

Senior Software Developer – ValueFirst Digital Media, Gurgaon

Sep 2018 – May 2019

- Led a Scrum team of 5; built Kafka messaging (30% latency reduction) and Spark ETL (50% faster processing).

Senior Web Developer – Aquad Software, Delhi

Aug 2017 – Sep 2018

- Developed web applications and REST APIs; integrated Salesforce, Marketo and Zoom into backend services.

Full Stack Web Developer – Samyotech Labs Pvt. Ltd., Indore

Dec 2014 – Jul 2017

- Built full-stack web applications, REST APIs, database design and data-integration components.

EDUCATION

B.E., Computer Science – Rajiv Gandhi Technical University (RGPV), Bhopal

2007 – 2011
